ANNOTATIONS

1. Top Bar

- The view all properties page top bar will hold two components.
- **Keyword Search Filter:** This is a regular keyword filter. When user types something on this search box will filter the related rows in the properties tabular view. The keywords should filter the Property name, address, owner name and tenant name.
- **Add Property Button:** Clicking on Add Property button will take the user to the add new property page.

2. Properties Tabular View

- Properties tabular view will display all the properties in a tabular view with Property Name, Owner Name, Tenant Name, Rental Status, Rent Information and lease type information on each row along with the Edit and Transaction button. Additionally, a Move-In button will be available for all the vacant properties.
- **Edit Button:** Clicking on the edit button will take the user to the Edit Property Screen, which will allow the user to edit the Property's details.
- **Transaction Button:** Clicking on the transaction button takes the user to the Transactions page for the selected property where the user can add, modify or delete the transactions.
- **Move-In Button:** Clicking on the Move-In button will take the user to the Create Lease Page.
